# THE PRIDE OF THE PARADE

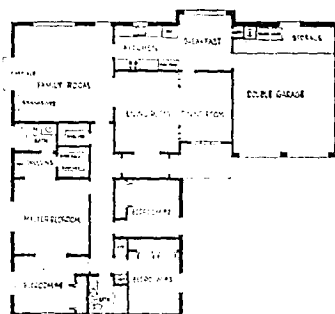

AT

## 2501 BRIARGROVE

### *The Lafayette...*

The bold international look that breeds excitement, color, and a sense of freedom was the inspiration for this home of refreshing new styling and common sense design. Acclaimed by experts for its compelling good looks, and solid comfort. Designed by an individualist—it will be chosen by those who demand expression of their individuality.

### *The Proud Expression for Better Living...*

Wayne Burns and his associates are proud of their entry in the Parade, which they call the aristocrat of today's fine homes. The four bedroom home can be classed neither as contemporary nor ante-bellum. "It is the accumulation of comforts handed down and improved upon generation by generation." It has a master suite complete with bedroom, bath, dressing area and huge closet. The large family room is beautifully paneled and has a vaulted beam ceiling and an attractive fireplace. The kitchen has furniture finished cabinets, built in oven and range, dishwasher and disposal, and it is handy to the breakfast area and the nearby utility room. The formal living room, dining room and the master suite are carpeted. The two tile baths are complete with tub and shower and dressing table. The attached double garage is attractively paneled and a disappearing stairway leads to ample attic storage. It is of masonry construction with northern cedar shingle roof. The outstanding feature of the Lafayette is the traffic flow. It has the bedroom wing, the formal area and the casual or informal area and it lends itself to any and all age groups.
